46966-68

Dated:- 29-8-18

To

The Chief Engineer (Generation),
HPSEBL, Sundernagar.

Subject: - Necessity of the training for the field staff deployed in Power Houses of various HEP's within HPSEBL.

It is intimated that HPSEBL is going to impart training for Fitter, Welder, Electrician mechanic, rigger etc. to who are deployed for the day to day operation and maintenance of the Hydro mechanical components erected in various HEP's. You are therefore requested that the names of two officials from each P/H Division who are working under your control may kindly be sent to this office within seven days positively on the format given below.

Sr. No.	Name & Design.	Date of joining	Name of office	Name of P/H Division	Mobile Nos.
---------	----------------	-----------------	----------------	----------------------	-------------

It may be ensured that the names of Fitter, Welder, Electrician mechanic, rigger etc. so recommended are not at the verge of retirement and having minimum two years of services to be rendered to the HPSEBL. The requisite information may please be sent to this office by post, return fax & E-mail: trainingcell.hpseb@gmail.com.

Treat it as Most Urgent.

(Ram Kumar Gautam),
Executive Director (Pers.),
HPSEBL, Shimla-171004

Copy is forwarded to:

1. The Dy. CE (IT Cell) to upload on the HPSEBL website.
2. The Superintending Engineer, Planning Circle No. I, Sundernagar for information please.

SEBL

HIMACHAL PRADESH STATE ELECTRICITY BOARD LIMITED

Subject: - Necessity of the training for the field staff deployed in Power Houses of various HEP's within HPSEBL.

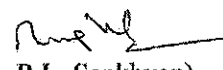

A bare perusal of the reports of Dam Safety and Pre/post Monsoon Committee clearly state that most of the projects in HPSEBL are being operated by the staff which is not well conversant with the day to day operation & maintenance of the hydro-mechanical components erected in various HEP's. It has been gathered from these reports that these components namely gates, hoists, trash rack machines, EOT cranes, etc are being operated by field personnel who are not skilled to operate. In the absence of right man at the right place possibility of any untoward accident which may occur while operating these gates cannot be ruled out. There is also a sheer dearth of qualified staff viz. fitter, welder, electrician mechanic, rigger, etc at site which could be deployed for operating these gates.

The Larji accident and the Bhaba fire, though not directly linked yet these should be taken as an eye opener as far as the O&M of the power houses is concerned. As a matter of fact, it is the need of the hour that these projects are operated with the aim to harness maximum output with minimum breakdown and without jeopardizing their useful life.

Having this thing in mind, as narrated above, it is proposed to impart training to the field staff in a phased manner at Sundernagar/Sarabai with the consultation of CE (Generation). The faculty shall be from the office of SE, Planning Circle No.- I, Sundernagar.

It is therefore submitted that the Superintending Engineer, Planning Circle No. I, HPSEBL Sundernagar may be authorised to arrange this workshop in a phased manner for about 45 people having approximately 15-people in one lot. Besides this, permission to arrange lodging boarding alongwith food for these people and the faculty member may also be accorded, please. Residential accommodation will be provided for the staff coming from far area such as Bhaba HEP, Giri HEP, Baner HEP, Khauli HEP, Andhra HEP etc. Approximate expenditure likely to be incurred will be to the tune of Rs. 40000/- only. It is therefore requested that the necessary expenditure sanctioned may please be got accorded from the competent authority.

Submitted, please.

(Er. R.L. Sankhyan)
o/c Superintending Engineer
